

CHACKO THOMMEN - The Patriarch

One Chacko Thommen is known as the "Father" of Marattukalam family founded at Changanacherry. The branches of the family (wherever it be), are known only in this name even today. For the sake of convenience some are found to use the short form "Maratt" omitting "kalam". There were five sons for Thommen. In the order of age from elder to younger they are denoted by the Roman letters I, II, III, IV and V. The ensuing generations from the above branches are identified by adding capital letters as A, B, C, D, E and etc. For example I A1, I B1, II A2, II B2 and etc. To denote the order of age we use with these letters 1,2,3 and etc.. For example I A1, I A2, II A1, II A2 and etc., I B1, IB2, II B1, IIB2 and etc. To identify women we add "f" at the end of the symbol. On this basis we can easily detect the branch, generation and gender of each member of the family chart.

Hereditary details in genital order.
