Born 15.8.1909. His early residence was in the present Ruby Nagar. He stands foremost among those who earned name and fame in the Marattukalam family. As one of the early industrialists of independent India, his life has been one of extraordinary progress and prosperity.

He took MA (Eco.) degree from St. Joseph's College, Trichinapally. Even though he was immediately appointed lecturer in S.B. College, his far sightedness, ambition and urge for business did not allow him to continue with the job for long.

Kunchamma, the founder of a variety of enterprises, started his new career by first establishing the Catholic Bank of India in 1937 which soon became one of the leading banks in central Travancore. Next, he turned his attention to the acute problem of transportation prevailing in the country. In the early 1940s he started the Kerala Boat Service jointly with his brothers, an efficient and cheap mode of transportation in Travancore. Soon it became the largest back water boat service in Kerala.

Next, automobile industry in this country was registering rapid progress and Kuncheria T. Marattukalam making use of this opportunity turned his attention to manufacturing. He started a rubber industry and purchased six acres of land at Morekulanagara belonging to Marattukalam Kunjappichen. In 1946 he started the Ruby Rubber Factory at Changanacherry. With the help of his brothers, he started manufacturing balloons. The Ruby Rubber Works, a partnership firm took shape then and there. Soon it started manufacturing a more profitable commodity the "camel black" (rubber retreading material). The products manufactured in this factory were of a very high quality and had great demand in India and abroad. To meet this high demand, the factory was expanded and registered

as a public limited company in 1955. By this venture, Changanacherry became a leading centre of rubber industry in the business map of India. By the end of 1960s Ruby Rubber Works Limited was the second largest manufacturer of camel black in India. This paved the way to the manufacture of another commodity the cycle tyre. Factories were set up in Changanacherry and Chennai and soon became the largest Indian manufacturer of cycle tyres.

Eventually, a Bangalore based large-scale factory, a sister concern of Ruby Rubber Works Limited came into being followed by another factory Maratt Rubbers. For the sale of products from these factories depots were set up in most of the major cities in India providing employment for a large number of people.

Kunchamma did not limit his field of activity to rubber industry alone. He resolved to exhibit his expertise in the plantation field also. Accordingly, he established several estates in Malabar. The prominent estates include Mambad timber and those at Manimala, Payyoli, Akalapuzha and etc. During his journeys for establishing these estates, he had even faced fatal attacks from wild elephants and miraculously escaped twice.

For the supervision of the various establishments that emerged in different places he constructed dwelling places at Bangalore, Kozhicode, Nilambur and etc. and occupied them in turn. Finally he sold out his properties and houses at Changanacherry and settled permanently in Bangalore. In all the above establishments he had served as Chairman, Managing Director and Director.

Usually attired in a silk juba and dhoti with black lining Kunchamma's physique, movements, shining eyes and stern face were challenging. His ardent desire to achieve greater heights in the financial field augmented by hard work, strong determination, proper aim and daring nature made him a great man in achievement. Above all, he had a strong unflinching religious faith and never failed in attending all important religious rituals.

He was President of the Marattukalam Kudumbayogam for five years which was revived in 1955 after a break. Kunchamma married Thankamma, daughter of Mathachen, Malayil house, Athirampuzha. He died on 16.7.1974 at the age of 65. His body was brought to Changanacherry and buried at St. Marys Cathedral Church in his own parish. Finally he took up the Managing Directorship of Changanachery Ruby Rubber Works Ltd. In spite of his tireless efforts the company was running at a loss due to several reasons like the frequent labour problems, non cooperative attitude of the financial institutions, the Reserve Bank's restriction on loans etc. Consequently in March 1976 the management of the company was handed over to IRC (Industrial Reconstruction Corporation). The working of IRC didn't succeed in making the factory profitable and so was returned to the original management. After repeated losses the company was finally liquidated.

Mathuchan had purchased in 1969 the Nelliampathy coffee and cardamom estate, more than 1000 acres in area. Later he sold it for investment in the industrial sector. Due to his persistent efforts, the Ruby Rubber Works, in 1971, obtained the industrial license to commence an automobile tyre project.
